9301	9301	Rd 642- Rd 243	4.9

**Total Miles 83.1**

### Materials to be provided

Grantee will furnish all necessary supervision, equipment, tools, labor and transportation required to complete the project.

### Technical Specifications

#### Trail Clearance

Remove all limbs, logs, trees, and snags lying across the trail. All downfalls must be cut for an eight (8) foot clearance (four feet on each side of the center trail tread). Remove logs to the downhill slope of the trail. All cut lengths will be kept out of streams.
